FEEL THE COMFORT ALL ALONG

ABOUT US

SI Air Springs (formerly Firestone TVS) was incorporated in 2008 as a joint venture with the world leader Firestone, built on world-class technology and strong process capabilities. Established as SI Air Springs Private Limited in 2018 after the conclusion of the joint venture, the company today stands as India's first indigenous air springs manufacturer and is part of the USD 3 billion large Indian conglomerate TVS Mobility Group, delivering end-to-end air suspension solutions with complete in-house design and testing capabilities.

SI Air Springs are Pioneer and Market Leader in supplying to leading Indian OE Manufacturer and Tier 1 Commercial Vehicle suspension parts supplier, Original Equipment Service provider with strong integrated supply chain backed by distributors / retailers with a network of more than 200 branches and 7000 outlets across India.

TVS Group, founded in 1911, is an Indian conglomerate with its principal headquarters in Madurai and marketing headquarters in Chennai. The group's subsidiaries are owned by three holding companies, viz., T. V. Sundram Iyengar & Sons Private Ltd., Sundaram Industries and TVS Holding Companies. With the growth and liberalization of the Indian economy, the TVS Group has evolved into full-fledged player in the TVS mobility ecosystem.
